

## **2019 ROGERS FIRE DEPARTMENT ANNUAL TRAINING PLAN**

The 2019 Rogers Fire Department Annual Training Plan (ATP) serves to inform personnel of the training requirements and opportunities during the 2019 calendar year. This plan details the scheduled training topics and objectives for each month that will be conducted as company or job wide training.

The ATP combined with minimum company standards, opportunity training, and discipline-specific training such as Special Operations Team (SOT) and Airport Rescue and Firefighting (ARFF) to form a comprehensive training plan that meets the current and future needs of Rogers Fire Department personnel. The ATP may be modified as the year progresses to include other training opportunities as opportunities present or organizational directions or deficiencies that become identified.

The training plan is a comprehensive all-hazards approach that meets or exceeds federal, state, and local regulations as well as the needs of Rogers Fire Department personnel. This approach allows the department to increase its operational and response capabilities which in turn increases the level of service that the department is capable of delivering to the City of Rogers.

The training plan utilizes a balanced approach for all disciplines including Emergency Medical Services, Fire, Technical Rescue, Hazardous Materials, and Officer Development to meet the training requirements for all-hazards. This balanced approach requires individuals to increase their knowledge and abilities in all response disciplines while simultaneously allowing individuals to specialize in subjects according to their skills and interest. The plan is designed to be specific yet allow for flexibility in the event of training that is made available or as departmental needs dictate. The annual training plan remains the ultimate authority for training topics any changes shall be approved by the Fire Chief or Deputy Chief (SOT).

Following a strategic priority for our department; Care for, Train, and Ensure the safety of our employees, the mission of all training for the Rogers Fire Department is firefighter safety. This mission will be the focus of the objectives for each training topic to ensure that overall firefighter safety increases as an outcome of each training session.

The ATP establishes the minimum training hours per discipline as well as the objectives for each training session. The 2019 plan also includes a detailed calendar for the year which will allow the company officers and command staff to balance other duties and priorities throughout the year.

<b>Training Types - Training Division Lead</b>	<b>2019 Hours</b>
Fire Related	52
EMS	48
Hazardous Materials	24
Technical Rescue	24
Officer Development	24

The key to the Annual Training Plan is flexibility. The following monthly parameters have been established to ensure balance and continuity across all training disciplines to accomplish the established training requirements. This balance will allow personnel to train in all disciplines throughout the year and maintain the necessary skills and proficiencies essential for optimal performance in the case of an emergency.

January		February		March	
Fireground Operations	4 hours	Fireground Operations	4 hours	Fireground Operations	4 hours
Special Operations (C O)	4 hours	Special Operations (C O)	4 hours	Special Operations (C O)	4 hours

Special Operations (C O)	4 hours	Special Operations (C O)	4 hours	Special Operations (C O)	4 hours
EMS Skills	4 hours	EMS Skills	4 hours	EMS Skills	4 hours
Officer Development	2 hours	Officer Development	2 hours	Officer Development	2 hours

Special Operations Training is designed to ensure that all personnel is operating at a level that is in line with department expectations. Hazardous materials training meets or exceeds the requirements of the Arkansas Department of Emergency Management. Additional spontaneous evolutions will be scheduled throughout the year to increase the capabilities of the organization.

<b>Special Operations (Technical Rescue / Hazmat)</b>	
<p><b>1st 10 minutes in Haz-Mat</b> Objective will be to review the standing orders for haz-mat incidents, and to establish the most appropriate steps to be taken by initial companies during the first 10 minutes to increase likelihood of success.</p>	January
<p><b>Natural Disasters (case study)</b></p> <ul style="list-style-type: none"> <li>Objectives will include review operations, safety, tools/resources, lessons learned, injury and/or NIOSH reports if available. Emphasis should be placed on a Rogers Fire Department response plan to same or like incident</li> </ul>	February
<p><b>Swift Water Rescue</b></p> <ul style="list-style-type: none"> <li>Objective will be to review the standing orders for swift water response and the responsibilities of all responding companies within their training and equipment levels. A practical evolution will be required as part of this session. (Location TBD based on weather conditions)</li> </ul>	March
<p><b>Ropes and Knots</b></p> <ul style="list-style-type: none"> <li>Objectives will include review of all fire service and rescue centric knots, basic/advanced anchors, and basic mechanical advantages. A practical evolution will be required as part of this session.</li> </ul>	April
<p><b>Basic Rappelling</b> Objective will be a brief review of basic anchoring, class 3 rescue harness, rescue hardware, and ability of all personnel to make a single line rappel with a safety belay.</p>	May
<p><b>Structure Collapse</b> Objective will be to review the USACE FOG manual for construction of, load limits, safety factors, and appropriate usage of each class shore. Emphasis will be on the support function of company personnel in the collapse environment</p>	June
<p><b>Trench Rescue</b> Objective will be to review standing orders, all safety considerations, protective systems, pt. management, and top-side ground work and support roles.</p>	July
<p><b>Terrorism Trends-ATF</b> Objective will be to review and learn about the recent and current trends with regard to terrorism and counter terrorism and how we should be assessing, approaching and reporting suspected cases.</p>	August
<p><b>Confined Space</b> Objective will be review of standing orders for confined space incidents. Emphasis will be placed on air quality, lockout/tagout, documentation and permits, construction of entry system and air supply.</p>	September
<p><b>Hazardous Materials Refresher</b> Objectives will include technician level skills necessary to meet the requirements of ADEM as necessary for the annual refresher process and those topics not covered in the ATP.</p>	October
<p><b>Haz-Mat Mapping</b> Objective will be to review mapping software to project areas of concern during several simulated events. Emphasis will be on early detection of substance type, weather, isolation distances, and signs/symptoms of exposure.</p>	November
<p><b>Wilderness Search and Rescue</b> Objective will be to review the rules of wilderness search and rescue, lost person behavior, pt. management and evacuation, and response personnel safety.</p>	December

EMS training has established subject material by the Arkansas Department of Health required for licensure recertification. The training will be delivered by traditional and hybrid means to provide the relevant training will ensuring the program is effective and efficient as possible. Additional spontaneous evolutions will be scheduled throughout the year to increase the capabilities of the organization.

<b>Emergency Medical Services</b>	
EMT Basic Refresher Skill: Required by Arkansas Department of Health	January
Paramedic Assistance Skill: RSI/Airway Skills	February
ECG monitoring / 12 Lead Skill: IV,IO Access, Huber Needle	March
Neonatal Resuscitation Provider Skill: Patient Assessment	April
Respiratory Skill: RSI/Airway	May
Bloodborne Pathogen/Infection Control Skill: CPAP/Capnography	June
Trauma Skill: Cricothyrotomy /Chest Decompression	July
Environmental Emergencies Skill: RSI/Airway	August
Stroke/Altered Mental Status Skill: Mechanical CPR / Auto Pulse	September
Pharmacology Skill: Med Calculations	October
MCI/Triage / Critical Thinking Skill: MCI Drill	November
Cardiac Skill: 12-Leads Practice	December

Fire-related topics are addressed as formal training sessions aimed at increasing the overall ability of department personnel. These established topics will be in addition to the determined minimum company standards conducted by all company officers for their respective crews on a quarterly basis. Minimum company standards will continue to focus on the Rogers Fire Department big 5; Ladders, SCBA, Firefighter Survival, Fire Training, and 1410 Evolutions. The goal of the minimum company standards is to practice each of the big five on a quarterly basis, to perform them as in a real situation, and take the necessary steps to master the performance of each crew member.

The training plan will allow adequate time in each month's schedule for the completion of the big five. It will be the responsibility of each company officer to not only complete the assigned minimum company standards on a quarterly basis but also to ensure that each crew member possesses the knowledge, skills, and abilities to perform his or her duties to meet the established expectations of the Rogers Fire Department.

Fire training will be monthly consisting of four to eight hour sessions. Fire training sessions will focus on operations that are low probability /high-risk events. These training sessions will incorporate standing fireground orders, the implementation of new equipment or standard operating procedures, and the addition of any new techniques or methods that are introduced to department personnel.

<b>Fire Related</b>	
<b>SLICERS</b> <ul style="list-style-type: none"> <li>Objectives to include review of SLICERS, flow path management, soffit attack, fastest water and smooth bore and fog nozzle facts.</li> </ul>	January
<b>Reading Smoke</b> <ul style="list-style-type: none"> <li>Objectives for this training session include a review of the Art of Reading Smoke guidelines and applying those guidelines to various scenarios.</li> </ul>	February
<b>Engine Company Ops</b> <ul style="list-style-type: none"> <li>Objectives to include.</li> </ul>	March
<b>ICS/Sim Lab</b> <ul style="list-style-type: none"> <li>Objectives for this training to include a review of ICS, its terminology and application to both large and small scale incidents.</li> </ul>	April
<b>Non-Traditional Truck Company</b> <ul style="list-style-type: none"> <li>This course will be taught by Chief Jim Silvernail and will cover various truck company operations.</li> </ul>	May
<b>Nozzle Forward</b> <ul style="list-style-type: none"> <li>Objectives will include a review and application of the nozzle forward hose advancement techniques.</li> </ul>	June
<b>ARFF</b> <ul style="list-style-type: none"> <li>Objectives will include a review of the ARFF truck as well as how to properly supply water to the ARFF truck during emergency incidents.</li> </ul>	July
<b>Big Water</b> <ul style="list-style-type: none"> <li>Objectives to will include the concepts of utilizing fixed and portable master streams as a part of initial fire attack operations.</li> </ul>	August
<b>Outside Instructor (TBD)</b>	September
<b>High Rise</b> <ul style="list-style-type: none"> <li>Objectives will include a review of High Rise Standing Fireground Orders, case studies and scenarios</li> </ul>	October
<b>Company Officer, Fire Equipment Operator and Firefighter Evaluations</b>	November

Additional training such as night drills and spontaneous evolutions will be scheduled throughout the year to increase the capabilities of the organization and to meet the requirements necessary of an all-hazards department aspiring to be an established authority, nationally recognized in every risk-related discipline. The use of acquired structures for department training will continue to be a primary focus as the realism provided by these structures proves to be an invaluable aspect of the Rogers Fire Department training program.

Rogers Fire Department realizes that additional training classes may be required throughout the year for individual needs for promotional purposes, specialized disciplines, and merely the professional development of personnel. Throughout the year, courses for certification, advanced and specialty training and training that will include development Rogers Fire Department personnel are offered. These classes will be provided to personnel through the 2019 personnel Development Calendar. Certification classes will continue to be hosted by Rogers Fire Department in 2019.

It is the goal of the Rogers Fire Department to provide a safe, comprehensive training program for all personnel and increase the overall effectiveness of the organization. This training plan is developed before the beginning of the year as the training committee identifies topics for the upcoming year and strives to find to new and progressive opportunities to advance personnel's training level throughout the year.

This multifaceted approach allows Rogers Fire Department to receive training on all levels of the organization and ensures all disciplines are engaged on a regular basis. The ability to adjust training to the needs of the department will be the strength of the plan as will the accountability that is ensured by such an approach. This plan will be re-evaluated on a monthly basis by command staff and the training committee to ensure it is as effective as intended and receiving the commitment that is necessary for success.

The 2019 ATP has specific dates established for each training topic. It is the responsibility of the Deputy Chief (SOT) to ensure adequate scheduling is maintained and adjustments are made to include proper notifications to all department personnel. It is the primary goal to allow twenty-one days advance notice for modifications to any training event covered within the ATP. This plan will include the establishment of specific dates, instructors, objectives, and especially the desired outcome for each training event. Also, specific class times will be established during command staff and published to all personnel with two-week notice as part of the Weekly Operational Briefing (WOB).

Monthly training requirements established by the department are as prescribed below. It is the responsibility of the Company Officer to ensure that the minimum requirements are achieved through the use of the training plan, quarterly standards, and company officer led training. Quarterly hours will be audited to ensure that the minimums are being maintained. Companies who fail to meet the minimums will receive training supplements from the training division to ensure compliance.

Category	Hours required monthly to be considered meeting the minimums
Emergency Medical Services	5 hours per member
Fire Suppression	16 hours per member
Driver Operator	5 hours per member
HazMat	1 hour per member
Officer	2 hours per member
Physical Fitness	5 hours per member
<b>Total Hours</b>	<b>34 hours per member</b>
